A FOOLISH BILL.

The JOURNAL agrees with the *Enterprise* in its opinion of Assembly bill No. 29, which professes to regulate the practice of medicine in this State. "It provides for an examination of applicants to practice medicine, and appoints a board to conduct the examinations, the members to serve without pay. As the examinations would probably last a week, no physician at present in Nevada could leave his patients and donate his services for that length of time. The examinations would only be a farce, as any physician could take a boy into his office and coach him so that he could pass the examination."

"The bill is opposed by every reputable physician in the State of both schools, and this fact alone should cause the measure to be defeated. If the bill is passed it would cause reputable physicians to move elsewhere, and as we have a good medical corps in Nevada we should show them every consideration and not try to drive them away."

In fact, we do not believe in any legislative regulation relative to the practice of medicine. The writer remembers when the present law was enacted, he ridiculed it in a paper with which he was connected at that time, in a certain Nevada town. The law only requires a diploma from some medical college to enable the holder to practice medicine in the State. A medical friend expostulated against our ridicule, saying that the law would be a protection to regularly educated physicians and would shut out such pretenders as Dr. ———, a quack who couldn't spell "baker" with a dictionary. The writer made the medical gentleman a friendly bet that if the bill passed Dr. ——— would be practicing again in less than six weeks after its passage. The bill passed, and Dr. ——— made a trip east and in less than three weeks returned with a "diploma" from some jerkwater medical institution and resumed his practice the same as before the enactment of the law. A female practitioner in the same town sent east by mail and procured a diploma made out in unexceptionable Latin, but in the masculine gender all the way through. The proposed law, if it could be made operative, would only make it easier and less expensive to manufacture ignorant doctors, as applicants could legally qualify themselves for killing people without leaving the State.

The medical profession is the same as any other. It is a question of the survival of the fittest, and, in our opinion, no law that could be enacted would prove the slightest protection against incompetent practitioners.

STEWART'S OBSERVATIONS.

Edward S. Little, one of the brightest, most intelligent and reliable of Washington's newspaper correspondents, writes the *San Francisco Bulletin* regarding the "grand old man":

Senator Stewart of Nevada got back to Washington just in time to get in a few speeches before the death of the present Congress, and he is not missing any opportunities. Mr. Stewart is the most voluble talker in the Senate, and he talks at the most inopportune moments. It matters not to him whether the Senate is in a hurry or not, he must submit his "observations" on everything—particularly upon the crime of '73, which was the demonization of silver. Mr. Stewart is not what may be called a polished orator. Somehow he raps one by his "observations." He starts out upon a speech with the direct purpose of settling the whole question under discussion. Usually he takes time enough to settle most anything, and then the whole Senate votes the other way.

Sometimes Senators are rash enough to suggest to Mr. Stewart that he might better deliver his speeches at other times, whereupon the Nevada man shakes his whiskers in the air and wants to know if he is to be deprived of his rights in the Senate. "Is free speech to be throttled in this body?" he roars. And then he preserves free speech to the Senate and the country by talking for a couple of hours.

A BILL for the establishment of a State lottery has been introduced in the Legislature. There is a constitutional provision against such legislation, but probably the bill contains a clause repealing that part of the fundamental law. That would be no more absurd than more than half the propositions submitted during the present session. We are, in fact, rather pleased than otherwise that such a bill has been introduced. The record of the present Legislature wouldn't be complete without it.

A LEGISLATOR who voted for Stewart because he felt in honor bound to do so, after the decision in the Carson band case, remarked: "I am now sorry that I voted for such a man, notwithstanding his endorsement by the Silver party. It would be better to have a deadlock in the Legislature than such a dead beat in the United States Senate."

The Burns men are literally doing their d—dest, to force the Republican members of the California Legislature into caucus. This would result in the nomination of the Southern Republic's bully and ignoramus. The decent Republicans have so far refused to be led into the trap.

The notorious John Doe and Richard Roe are still up to their old tricks. They are charged with having stolen a wagon from Mrs. Ahlers at Austin.

Real Estate Agent T. P. Bradehaw informs the JOURNAL that he sold more property during January and February than he has ever disposed of during the same months since he went into the business in Reno.

Times are much better in Virginia City now than they have been for some time. Whatever the outside world may think of the pumping project the average Comstocker has unbounded faith in the success of the undertaking.

Both houses of the Legislature seem to have turned their attention to game and fish laws. However, as one member remarked, "While we are working on game laws we are not doing any damage, and you ought to be mighty thankful for that."

The Davis-Livingston bill to run county affairs and to corrupt the press of Nevada will most likely be defeated. It could not be otherwise. In any event it is generally conceded that these gentlemen will have enough to attend to with their lottery bill to keep their attention.—*News*.

Mrs. Della Smith has filed an application in the Superior Court in San Francisco to annul her marriage in Reno on the 5th of February with John Smith. She alleges that soon after her marriage she learned that Smith had a wife living. He does not deny this, but says he believed his former spouse was dead. This is a couple who traveled all the way from California to get married less than a month ago.

A Bouncing Boy.

The JOURNAL and force were the recipients of a box of fine cigars yesterday, the compliments of Harry Clausen of the Washoe Lunch Counter, the occasion of it being the arrival of a bouncing boy at Harry's residence at an early hour yesterday morning. The whole force join in congratulations to the youngster's parents and smoke to the future health and success of young Clausen. May his shadow be as broad and his life as pleasant as the smile that lights up the face of his daddy when his arrival is mentioned.

The Theater.

A packed house witnessed the performance given by Hi Henry's mammoth minstrel troupe at McKiesick's Opera House last night. We are safe in making the assertion that a better minstrel company has never visited Reno. An excellent military band, good vocalists and a unique stage setting in the first half made this feature rank above that of ordinary minstrel attractions, but the unparalleled specialties introduced in the olio are undoubtedly what have made the company famous.

James McDonald Dead.

James McDonald, superintendent of the Union Ice Company and proprietor of the Boca Hotel, died of heart failure yesterday morning at the Saint Mary's Hospital, San Francisco.

Mr. McDonald was about 60 years of age and a native of Scotland. He had been an active business man for years, and was well known in this city. He had been afflicted with heart trouble for some time, consequently the end was in view, but nevertheless the family is grief stricken at the loss of their beloved father.

Woman suffrage.

CARSON CITY, March 2, 1899.

The Senate held a session last evening for the special consideration of the bill resolution amending the State Constitution by striking out the word "male," allowing women to vote.

The Senate chamber was well filled with the fair sex, and the leading Senators made eloquent speeches on the subject, which lack of space compels us to leave out.

But the result in final roll call was that the resolution was lost.

Railroad Pronunciation.

"I regret to say," remarks a writer in the Boston Transcript, "that on the Providence railroad Wrentham has lately become 'Wren-tham' (as in Sam) in the mouths of several brakemen. First we had Wal-tham, similarly twanged in the second syllable, and I fear that ultimately we have to submit to Ded-ham in the place of Deddam. Thus do English names suffer in the mouths of those who are quite ignorant of their history. Not merely because it is English, but because it is logical and historical, and because the word 'ham' has its meaning. Waltham should be Waltham and Wrentham Wrentham. A return to the colonial pronunciation to this extent would, of course, be too much to ask, but still for a little space, O arbiters of the railway, spare us that sharp a in the 'tham!'"

Soap Mixed In the Dough.

Epicures may be interested to know that continental bakers are in the habit of mixing soap with their dough to make their bread and pastry nice and light. The quantity of soap varies. In fancy articles, like waffles and fritters, it is much larger than in bread. The soap is dissolved in water, oil is added, and the mixture, after being well whipped, is added to the flour.

Not Very Comforting.

SUMMONS.

IN THE SECOND JUDICIAL DISTRICT

IN the County of the State of Nevada, in and for Washoe County.

The State of Nevada sends to C. H. Gardner, David T. Jones and W. T. Burnham, Greening:

You are hereby required to appear in an action commenced against you as defendant by A. J. Foster as plaintiff in the Second Judicial District Court of the State of Nevada, in and for the County of Washoe, and answer the complaint therein within ten days after the service on you of this summons, exclusive of day of service, if served in said county, or twenty days if served out of said county, but within said day, and in all other cases forty days; or judgment by default will be taken against you according to the prayer of said complaint. This action is brought to recover against you a decree to foreclose a mortgage made by C. H. Gardner on the following mentioned and described real property, to-wit: South half of the west one hundred feet of lot six in block "U" and lot 5 in block "U" in the town of Reno, Washoe county, State of Nevada, as appears by mistake in the most recent subdivision map filed in block "U" in the county clerk's office, and as appears by record including the mistake that shows said lot 5 to be a part of block "U" and not a part of block "U" as in fact it is, also to procure an order of court directing a sale of the above mentioned property for the purpose of procuring money to pay a promissory note to the sum of \$1889 and \$1-100 dollars, including interest accrued and unpaid. Said note was made by the defendant Gardner on the 4th day of October, 1896, and by its terms provides for interest on the money thereby represented at the rate of 5 per cent per annum, interest payable semi-annually. I have said note and the interest thereon secured and remaining unpaid is said sum of \$1889 and \$1-100; also should there be insufficient to pay said indebtedness a judgment is sought for any unpaid remainder after payment of costs and charges of foreclosure and sale. It is alleged in the complaint that there is a mistake in the deed of the property mortgaged and the mistake is sought to be corrected by order and decree of court, and thereafter that an order be made and decree entered foreclosing said mortgage and directing a sale of the property mortgaged, and after sale made that the net and clear proceeds of foreclosure and sale including attorney's fee of \$200 provided for in said deed, in the proceeds arising from a sale made of the mortgaged property, also that the defendants David T. Jones and W. T. Burnham, be made parties defendant and that they and each of them be required to answer the complaint, showing any right they or either of them may claim in the mortgaged property, all of which will more fully appear from the complaint, which is on file in the office of the Clerk of said Court, at Reno, in said county, and to which you are especially referred. And you are further notified that if you fail to appear and answer as a defendant, the said plaintiff will apply to the court for the relief demanded.

In testimony whereof, I have hereunto set my hand and affixed the seal of said Court, at Reno, this 1st day of February, A. D. 1899.

SEAL: F. B. PORTER, Clerk of the Second Judicial District Court of the State of Nevada, in and for Washoe County.

PRESENTATION.

The Ladies of the W. C. T. U. Surprise the High School With a Handsome Gift.

The ladies of the W. C. T. U. understanding the educational value of high grade pictures, yesterday presented to the High School a very beautiful likeness of Miss Francis Willard, the woman who has not only done much to advance the cause of temperance throughout the world, but has, as well, been identified with all the moral and social reforms of the age. The presentation was made by the Rev. G. H. Jones, in a most happy manner. He at first gave a synopsis of the work done by Miss Willard, and called the attention of all present to the lesson of noble self-sacrifice taught by her life. Prof. Bray then accepted the picture in behalf of the school in a pleasant speech.

The ladies also gave to the school library a copy of the life of Miss Willard, thus affording all pupils an opportunity to study for themselves the life of one justly characterized by Mr. Jones as "America's unrecognized queen."

The thanks of all connected with the schools are due the members of the W. C. T. U. not only for the kindness thus shown, but also for the interest they have evidenced in the welfare of the schools on many other occasions.

We Can Stand It.

The bill for public buildings has passed and Reno was not mentioned, which was quite a disappointment to the Riverside.—Carson News.

We don't know what bill the *News* alludes to, but if it is the Congressional one and Reno is omitted, we can easily give the source of the omission. Reno is the largest town in the State. Its postoffice does a larger business than any other, and this is the only town in Nevada where the government is paying rent for office purposes. But, thank the Lord and the enterprise of our people, there is more private building going on here than in all of the Nevada towns put together.

Millions Given Away.

It is certainly gratifying to the public to know of one concern in the land who is not afraid to be generous to the needy and suffering. The proprietors of Dr. King's New Discovery for consumption, coughs and colds, have given away over ten million trial bottles of this great medicine; and have the satisfaction of knowing it has absolutely cured thousands of hopeless cases. Asthma, bronchitis, hoarseness and all diseases of the throat, chest and lungs are surely cured by it. Call on S. J. Hodgkinson Druggist, and get a trial bottle. Regular size 50 cent and \$1. Every bottle guaranteed, or price refunded.

Misses Cummings and Ooley Vocal solo Miss Kate Merklinger Guitar quartet

Misses Ward, O'Connell, Arnold and Mrs. Scott.

A discussion will follow the last paper in which the members are invited to participate.

Entertainment To-Night.

To-night will be given the first entertainment of the series arranged by the High School management. The foremost educator in the State, Dr. J. E. Stubbs, President of the State University will lecture on the subject, "Here, There and Everywhere." Dr. Stubbs' ability as an orator needs no comment. As he has traveled widely and is of an investigating and observant turn of mind, the lecture will be a rare treat to those who attend.

Other features of a musical nature will add to the attraction.

The entertainment will be given in the High School building.

A Poor Arithmetician.

The twentieth century begins when the year 1900 is born and ends on the stroke of midnight, 1999. Brush up your arithmetic, dear "Luminary," and don't go about saying you belong to the eighteenth century; you are a little more recent than that.—*Twinkler*.

Learn the first rule in arithmetic and you will discover that 1 and 99 make 100, and that 1 and 1999 make 2000. Unless the Christian era commenced in the year 0, the twentieth century does not end until the stroke of midnight, December 31st, A. D. 2000. It takes 2000 years to complete 20 centuries and not 1999. One would suppose that even the intellect of the *Twinkler* could grasp such a plain and simple fact, but it appears that it is a notch above its intellectual perimeters.

The Ravages of Grip.

That modern scourge, the Grip, poisons the air with its fatal germs, so that no home is safe from its ravages, but multitudes have found a sure protection against this dangerous malady in Dr. King's New Discovery. When you feel a soreness in your bones and muscles, have chills and fever, with sore throat, pain in the back of the head, catarrhal symptoms and a stubborn cough you may know you have the Grip, and that you need Dr. King's New Discovery. It will promptly cure the worst cough, heal the inflamed membranes, kill the disease germs and prevent the dreaded after effects of the malady. Price 50c. and \$1.00. Money back if not cured. A trial bottle free at S. J. Hodgkinson's Drug Store.

Suspicious Characters.

Two suspicious characters from California dropped into town the other night. One is an ex-assemblyman of the Nevada legislature and the other is a sleek looking sheepman. The officers should keep their eyes on them.—*Elko Independent*.

Suspicious characters frequently "drop into" Reno, and they are not ex-Assemblymen or State Senators either, although some of them look like "sheepmen"—the kind that deal in other people's mutton.

An Accident.

Joe Lachman, a hackdriver, ran over and seriously injured the little son of Fred Kolster, yesterday at the minstrel parade.—The child was taken into Hodgkinson's drug store, and waited upon by Drs. Lewis and Phillips.
